

From the Manager's Desk

Once again the construction work season is here. The ground conditions are starting to improve...and as the farmers are able to plant their crops, we too are starting to bury fiber cable. You will see our crews this year working in all of the exchanges installing fiber cable and electronic equipment in cabinets as well as central office locations. Also you may notice our engineers from Finley Engineering working along the right of ways.

We hope to have a productive season as we have plans to install approximately 50 miles of new fiber in the Hamilton County Telephone Co-op Exchanges. We have been working hard to plan for this change as we continue to build our core network and reposition the foundation to support tomorrow's services.

We will be testing Fiber to the Home this year and we have plans to continue to move the fiber closer to your home every day. As you drive down the road and see our trucks and equipment be assured that we are doing this for you as we try to provide the next generation services you desire.

We are excited about the future and your co-op is working to provide you with the latest and greatest technology available. In the coming months our newsletter will keep you posted on the progress we are making, the things we are doing and new services that will be available in your area. If you have any questions please give us a call.

Thank You and God Bless

Kevin Pyle
General Manager & EVP

Hamilton County Telephone Co-op would like to wish all Seniors a bright and successful future. As we invest in technology to improve our infrastructure, we also realize how important it is to invest in our young people who have a desire to continue their education. The Seniors pictured above are the 2011 scholarship recipients awarded by Hamilton County Telephone Foundation at the Hamilton County Senior High Scholarship Banquet held in May.
