

Wiring Maintenance Plan

As of August 1, 2010, Hamilton County Communications, Inc. implemented a Wiring Maintenance Plan for our customers at \$5.00 per month. This new maintenance plan covers all service call charges (which includes travel to and from your location, 15 minute on-site evaluation and/or repair) during normal business hours. Our technicians will test and repair any of our equipment, regardless of how/what causes the failure (movement of antenna, dog chewing wire, cutting wire with mower, etc.). This Maintenance Plan does not cover equipment replacement costs nor repair labor for customer-owned equipment including, but not limited to, desktop computer, laptop computer, wireless router, and network/Ethernet cards. If you are a customer with a wireless router, we now consider that customer-owned equipment.

If you are interested in this Wiring Maintenance Plan for \$5.00 per month, please sign below and mail back to our office.
